

Length-confounding study

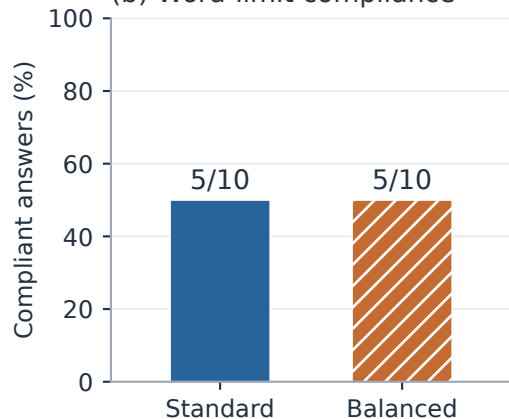

Both models: 1,500 training pairs · $\beta = 0.10$ · seed 6304

Standard DPO Length-balanced DPO

(a) Held-out length strata

(b) Word-limit compliance

Bars show exact observed fractions; no significance or confidence-interval claim.

Strata: 82 pairs each. Compliance: the same 10 fixed prompts and the released word-count rule.
